

Matamoras

July 3 / 93

Montreal, 3rd July, 1893

To
The Professor of McGill College
Montreal.

Sir,

You will receive by
today's mail several specimens of Rock
Containing Copper &c. which have been found
in three different veins and also a small bag
containing a black powder which is found in
the rock near where the Copper is found -
I would feel obliged if you would be kind
enough to let me know what you think of
the specimens and if they are of any value.

You will please send the answer in
French -

I Oblige
Your humblest Servant -
Marcelin Desrosiers.
