

C. A. McLeod

Aug 6/93

Faculty of Applied Science.

August 5th 1893

My dear Harrington

F. Rutherford

who took the Mechanical
 Course up to the end of the
 2nd year & attended some of
 the classes in the 3rd year,
 3 years ago, now wishes to
 take Mining. The difficulty
 will be in the Chemistry.

On looking up his record I

find he took 135/200 marks
in Chemistry in his first-
year. Will you kindly let
me know if you think it
probable for him to take the
2nd yr. exam.

Yours truly

C. M. Lord

Rutherford was 4th in his class
in the 2nd yr. Exam he has been
keeping up his work

C. M.

Have opened the way that there is not one
Product strip like found the ~~product~~
You perhaps remember his brother who was
with us once you & attended with Cornell
Quit a different kind of man.

Gen.
