

YALE UNIVERSITY.

DIRECTOR'S OFFICE.
No. 3, SHEFFIELD HALL.

SHEFFIELD SCIENTIFIC SCHOOL.

New Haven, Connecticut, Nov. 13. 1898

My dear Dr. Harrington

You may have note of the gift
in my hand. I thank you very much
for your kind invitation to be present
at the opening of your new Building
dedicated to Chemistry & Mining. While
I rejoice with you in the grand project
your Ministry ^{is} making, and that
you personally have been so active
in promoting its interests I am sorry
I cannot find that testimony in London
on the occasion of the inauguration

of the building. It is not practicable to leave
home at this time. I do most sincerely
congratulate you on the great success which
has crowned your efforts to advance the
cause of science teaching in your university.

I am glad to learn that James
Smith has proved a good student, we
found him a young man of admirable
qualities while he was here.

With my warm regards and best wishes

I am

Yours truly

W. J. Snell
