Professor B S Harrington PhD  
Munich

Dear Sir

I regret that engagements  
prevent my accepting your kind  
invitation to attend the opening  
Ceremonies at the new Chemical  
Laboratories, and all the more  
that your building seems to me  
a model worthy of the careful  
attention of all Chemists

I congratulate the University  
upon the admirable buildings which  
have been recently put up on so  
liberal a scale  
Yours very truly
