

The full one
Monday

July 6. 65

Dear George,

I received this
morning Warren's
letter giving an
account of your
departure, and had
just written a
long letter in reply
when I received
a telegram from Duke
informing me that

she is to be home
to-morrow. I had
hoped she would
have remained
over this week
and fear she must
have been un-
computable else
she would not
have left so hastily
I infer from the
telegram that she

was left you
at Cadmus

to write me
from you of
the safe arrival
at Quebec and
on help here

Trust you will
enjoy yourself and

that you will
endeavour to put

up with any small

annoyances, if there
is anything further
required for you
just - I shall speak
& running here and
get them & give
orders about it.

I am thankful for
your safety and hope
you are also and
that God will bless
all things & you
Mamma will

be here Dr. Mearns
and William and
I will go to the
boat to Quebec
on Monday and
if there is anything
you need we
can take it
with us and
have it sent
by Union.

Magnet, I am
Sory the aquarium
was cracked but
hope a little
putty may make
it tight for the
time. Please
be careful of
your footing - please
and see that
you do not make

mistakes through
hurry or carelessness
rep.

With all good
wishes from
Papa
