

I shall enclose a little
open note to Dr Carpenter
and send Daries of itself as it
is too heavy

Acc. 976

Wegall
Nov 12/69

Dear George

I have just time
to write a few lines to
say how much pleased I
am with all you have
written to us, and to
say to you to go on and
take courage, and to
do all things in the fear
of God and with due
regard to the preservation
of your own health
and strength.

Note what you say
about the paper for the
Royal Socy. I had some early
correspondence with the Council
about it some time ago,
and have now written

I & Mrs Sharp, the Secy,
to ask them to go a
day in the end of April
a beginning of May, so
that I can make sure
of the time. I have had
a letter from Rep, of the same;
and can see him when
I go to London. I shall enclose
note to Nipby & Dances thanking
them for their kindness to
you. You can either wait
or decline them.

I shall not write to anyone
about a popular Royal Institution
lecture; but shall wait to see if
you or Murchison do anything about
it. You might in speaking to Mr
Nipby mention it to him, as he
knows a good deal about the
R.I. Inst. &c.

My goose plants are turning out
beautifully, and I shall have a superb
collection to exhibit. I have the goose plants
all washed out; but shall not send any
unless you wish it, as I fear the goose plants
will be very few. I will bless you in all things
in the presence of
Your loving Father.
