My dear George

I take pen in hand  
today only to thank you for  
your letter from Echin. Tell  
me how the clothes fit & if  
you like the style. I also very  
highly to say, what I am sur-  
prised & Anna here abnally  
said, how glad & thankful  
we are you <sup>are</sup> so far to seek  
to now consider you settled  
for the present. The only thing

that might be better  
wonder he to Mr. Harris's.  
but that you can take  
time & consider of for yourself.  
I do hope that you will  
take every care that Providence  
can dictate of your health.  
I think you must put at  
present rather them out.  
Do not apply your self too hard  
to study until you are well  
rested. Notwithstanding you  
enjoy every one. You would

names have found more  
has got gone by the "Lake  
Ontario;" it has a passage of  
30. days & the Cap: a drunkard.

The inauguration of the Museum  
was a great success altho' I have  
not yet recovered from the  
fatigue I had in decorating  
& arranging the tables & library.  
I had an abundance of bouquets  
flowers & hot-house germs which  
are principal parts towards a  
nice looking table. I had  
8. maid & men servants doing

different duties all acted  
admirably. - 160. invited guests,  
nearly all of 100. were present.

My ordinary duties have been  
so neglected that I am now  
driven. I so must finish by  
telling you again how much  
I rejoice that you are safely  
at your destination. I have  
already met with so much  
kindness from friends. Tell me  
if Mr & Mrs Bigsby seem ready  
to care for the things sent. If the packages  
were kept good. With love & very  
good wish from your affectionate  
Mother.
