My dear George

If quite convenient to you
will you accompany me on Monday
next the 10th Inst. to the Evening Meet-
ing of the Royal Geographical Society?

You will be so good as take a family
dinner with us previously at 6.30 pre-
cisely - so you had better be with us at
6.20 p.m. —

If this evening should be inconvenient
to you mention any other in the same
week - The Geographic Meeting is always

very

very instructive as well as pleasant -

Mr Etheridge tells me you are in full
work - and that you like it - It does
not seem too much for you -

This is your seed-time - sow quietly
- uniformly and thoughtfully - and you will
carry some precious freight home to father
and mother - dear -

I am my dear George

Yours sincerely

J. J. Briggs
