

Especially
to find time
to read & write
on Monday

Acc. 926

Musellburg
Saturday
[1870]

Dearst fence,

I hope the thunder-
storm of which I see notices
in the papers, will have
diminished the heat of
which you complain, and
that you will be enabled
to go on more comfortably
with your studies. I think
it would be well if
you can do it, to leave
off the laboratory for a
time before the beams,
so as to save your whole
time to them. Do
not be anxious or
worry yourself, and

to keep cool and
to keep in good health
& vigor, as this is
often more important
than much reading.

I shall be satisfied if
you get through, so
do not worry if
you are not first.

In your letter
you say that the
Cherry Creek will
be on 29th & 30th.
I had supposed they
would be earlier.

Just to know im-
mediately, when the
last exam, will
be over, and about
day we may expect
you will, as my
movements depend
on this, and I
must engage my
passage in good
time. Please write
as soon as you
know, and address
to Filmer Place, as
we go there today.

We have found us
 a place called Gula hill
 Cottage at ~~Amsterland~~,
 of the name will give
 some terms. It is a
 nice place, within reach
 of beautiful woods, on
 the shore, and with
 good work districts, farms,
 & a, are full; and the
 railway to N. Amsterland
 of the North close to it.
 Then in Sept. you will
 be with Mrs. Pinner for
 a time, and will have
 a chance to see the fine
 and 2 formation districts near
 Perleporten.

Please send Archibald (over your father
 by Cork = post to Pist.
Rollerton, Oxford, and one
 to St. Olav, Oxford, writing on
 them - "with regards of the author"

W. Dawkins
