

I approve your choice of cloths - It is strong.  
 Willson has now a new suit in the hands of the  
 tailor. I regret I have <sup>M. Gill College.</sup> no <sup>Montreal.</sup> May 12. Monday.  
 a pattern to enclose.

70-71-67

My dear George

Your letter of April 27<sup>th</sup>

was duly received. I was quite  
 pleased to hear you had been  
 visiting Mr. Parker's family. I have so  
 often heard papa speak favorably  
 of them as good religious people.

I was in his office one morning  
 with papa & would have been  
 glad had they made advances  
 towards making farther acquaintance,  
 Altho' of course busy people in

London cannot be expected to attend to every passing stranger. Pray do tell us how many there are in the family - how old - if the girls are good looking, or pleasant, or intelligent &c we want to know somewhat of the details of the Conversations & incidents of such visits. In a letter from Mr Bigsby he tells of some papers Mr Parker is writing in a periodical about "Things" & also of his good character as a Christian.

We have been disappointed that you have not yet, apparently, heard from Prof. Ramsay about taking you upon the Survey. I am longing to know your own mind in regard to the

best way of disposing of your summer  
vacation. It is very nice & very kind  
of Prof: Phillips to ask you to their house  
& perhaps you may have time to spare  
to avail yourself of it for a short time, but  
of course you would wish to spend  
the larger part of it more profitably.  
Don't forget Mrs Crowe's kind invitation  
should you go to that part of England.  
see yet Mrs Cunningham. Victoria Park.  
Warrington. Always write beforehand to  
any friend you intend to visit asking  
if it is convenient & as soon after you go  
as possible tell them how long you propose  
to remain. I have on two occasions  
been annoyed by the Andros's dropping  
in upon me without such notice, as  
back times it was really inconvenient. Mr

Present occasion we were expecting the  
Misses Mc Limont & had your old room  
ready for them when Mr A. walked in,  
Consequently we have had to make the  
parlor into a bedroom as best we could.  
My nice little table maid has been prevented  
from returning so altogether it is rather  
troublesome at present. however it is very  
cheerful. Part of my time is at present  
occupied helping to form a "Ladies assoc. for  
the higher Education of women". When our Circular  
is printed I will probably send you one  
I positively refused to take any prominent  
office in the Society. but the truth is the  
whole thing emanates from papa & I am  
the highway between him & the ladies who  
are nominally managing. My paper has been  
covered before I had said half I meant to say  
to I bid you an unwilling goodbye.  
Our dear Perry gave affectionate kisses
