

Montreal June 2/71.

My dear George

I do not doubt  
that William has given you the  
temperature — Anna in her usual  
brilliant way, the passing events &  
papa the useful business guidance.  
So lucky as my time & paper are I hope  
I may be allowed the personal.  
My new business of Hotel keeping  
succeeds wonderfully — "Still they come"  
I never have one bed empty &  
each guest before departing assures me  
(perhaps it is too vain in me to believe it),  
that they have been so well entertained that  
they will come again when it suits

that Convenience. As between my business  
my work & my voluntary help given  
to the "Ladies Assn: for the higher education  
of women" I am kept making. Lately Mrs  
Simpson & I have been to Dublin to request  
the Bishop to speak at our first public  
meeting called for June 10<sup>th</sup>. when Papa  
will take the Chair & the Compliment  
of speaker be completed by Sir Alex: Pitt &  
Mr Beydye with Mr Gibson to read the  
report. We are much encouraged by the  
 hearty response we have had from most  
of the ladies we have called upon being  
already upwards of fifty waiting to enroll themselves  
as members. I was very much pressed to take  
the office of Vice-President but from prudential  
reasons I positively declined for will see  
by our Circular that I allowed my name upon  
the Executive Committee. I have been an  
active co-operator in the work.  
With much love  
Priscilla
