

June 24/71

Dear George,

I have received the
 box of my paper - Septarian
 and note what you say
 in your letter by last
 mail. Our anxiety about
 your summer employment
 is still unrelieved but I
 have no doubt you will
 provide. If you go to London,
 please call on Mr Dandrea
 and give him my kind
 regards. I wrote to you quite
 full of a late mail in the
 midst of the summer months
 & trust you have received
 my letter; but of course
 circumstances may have
 much changed before you
 receive it. I cannot tell
 you how hard I have had

I have sent you a Canadian. I'll do it with the recovery
 of that. Well by.

I wish this Spring, my
mind has been thrown
to the utmost; but now
I am nearly through for
a time and hope to
have a little rest for
a fortnight at Cassino,
and wish you would
be with us there; but
we shall hope to welcome
you some fine
day. In the mean
time we think of
you and pray for
you. If any extra
expenses should be
connected with your
summer work do not

be repaid of them; but
inform me in time
and I shall remit to
you the sum.

I have now all
my memoir in German
prints in type and
shall have it out
in autumn. The delay
arises from the plates;
but I can circulate
a few copies without
plates earlier. It was
a very sorry thing of the
Royal Society people not
to print it for me; but
a breach of faith in the
first place and a
mistake amounting to the

papers would have
done them some credit,
But they are utter
ignorant of the subject
and did not see it,
As it is it is better for
me, as the sum is to
pay the expense of
printing, and I shall
be much more free to express
my opinions and shall have
plenty of copies to circulate,
Whitehouse and Kemmer
are going on a dredging ex-
pedition in the Great Schuman
Sea Lough and I shall
get some of the ship's masts
for you if you have time
to look at them. I shall
get a notice of the expedition
sent to you.
