

Cucamonga July 22  
1771.

My dear Percy—

Only a word  
to thank you for your  
Consociation's diligence, & with  
deep thankfulness Congratulate  
you on its successful issue!  
I have not much gift to express  
well my feelings on paper. You  
must include me in all  
Anna's good wishes. I grateful  
expression. My first desire on

making Prof Ramsay's letter  
was three paper & William met  
at once share one joy. It was  
past telegraphing hours; Saturday eve.,  
& Sunday the only likely day for  
them to be in Charlotte Town  
Fortunately Miss Campbell was  
spending the day with us & her  
father was to call for her.  
He is one of the Directors of the  
Telegraph Company. & he most  
kindly walked to the Hotel  
& ordered the messengers to be  
sent this (Sunday morn). So I trust  
we are all rejoicing & giving  
thanks together. I do sincerely trust

that your health has not  
suffered, or at least that  
a few days of Cumberland air  
will prove sufficient to  
reinvigorate you. God has  
been very good to you during  
Perry's. In his turning so great  
mountain power, I wish to earnestly  
that the heart may be cultivated  
as well as the head. (With the  
heart man believe into righteousness.)  
& hearts devoted to His service.  
Only then will your outbreak  
being be complete (well balanced)  
& your judgement powerfully

helped by a new all-enlightening  
faculty.

How good & thoughtful it  
was of you to write to me  
before his birth. It came  
one day before. I think she appreciated  
the kindness. It has reminded me  
that I am almost too late to be  
in time to wish you many returns  
of yours. I hope the present one  
may be spent very happily. You  
have I think many great causes  
of happiness.

With much much love  
I repeat Congratulations upon the  
success of your exam:<sup>s</sup> from your  
loving Mother
