20 Halsey St - S.W.

July 3. 72.

187

Dear Sir

I herewith agree to accept your offer & will be prepared to embark on the steamer leaving Liverpool July 10, for the purpose of testing & reporting on the iron ores of the district you propose to examine.

I should prefer after having done what may be required on the spot, to take the ores to Montreal for assay.

The remuneration to consist, as

you propose of £20, with traveling expenses to the locality, & an equivalent

for the homeward passage-money  
as I wish to remain in Canada  
after completing the business

Yours Truly

George W. Dawson

Z

Francis files by C. E.

In the examinations of the second year  
I was awarded the Director's medal &  
prize in geology; & the Duke of Cornwall's  
scholarships for greatest-general proficiency.

In the examinations of the third year,  
the Associateships of the Royal School of  
 Mines, & the Ed. Forbes medal & prize  
in Natural History & Palaeontology.

I have also, through the kindness of  
Prof Ramsay, had the advantage of  
spending part of a summer in the  
field with the Geological Survey of Great  
Britain; & have been engaged in some  
mineral surveying in Nova Scotia &  
elsewhere.

Your obed. servant-

George M. Dawson

A. R. C. Selwin Esq. G. S.  
Director Geol. Survey Canada

Letter to Selwin  
Jan 2. 72.

I have also, through the kindness of  
Prof Ramsey, had the advantage of  
spending part of a summer in the  
field with the geological survey of  
Wisconsin, & have been engaged in some  
general surveying in those states &  
Illinois.

Yours obed. servant  
George W. Brown
