

100
April 10/74

Dear George,

We have had
rough & somewhat unsteady
weather since you left.
There however it will
not interfere with your
journey. To day is quite
a heavy snow & storm
like mid winter.

I mail to day your
papers to Lockyer, all neatly
copied out. The frame
paper is in hands of
printer and I shall have
early copies next week.
The cuts are in Walker's
hands. Seeds have
been sent as directed
to Dunkin and to
Hooker. Wellens eye is

paid and I enclose
receipt. All the plants,
rocks we are saving
have up, & Mergel's box
will be sent to a number.
So I think all your
conferences are attended
to. You left no message
for the Beaver works co.,
but I suppose you attended
to that before leaving. No
letters have arrived for
you and my pamphlet
for Minnesota study of state
science, containing nothing
very special. I send two
copies of Nature by mail
and next week shall
send Science to you
address. We are all
well and I suppose Anna
will write with this. May
God bless & protect you
and your family
W. D. Davenport

April 10/14

Dear Sir,

I have been
 very sorry to
 hear that you
 have been
 laid up, and
 that you will
 not be able
 to attend
 the meeting
 on the 15th
 inst. I am
 very sorry
 to hear of
 your illness,
 and hope
 you will
 soon be
 able to
 return to
 your
 duties.

Hand and of course
beet. All the plants
look as we thought
that up, I thought's
was in fact a
to attend all your
conferences are
I, for left in
for the reason
but I suppose for
I that before
letter have
for and up a
for the
beaten, I
my special, I
of the
and that
best known
category, I
see and of
but with the
put the
