Dear George

I received a letter re-  
ceived by English Mail &  
Spel has also sent to you  
a copy of his new edition  
of the Elements. Shall I  
send it by book-post. Your  
letter from St Pauls arrived  
safely & was great joy. I have  
just read proof of your  
paper. I have found "San qui  
Curt" on the map. It is  
an obscure R. 500 miles  
S of Pembina. Make put  
this in a note. I see also  
a list of Shrebergs. I have  
referred to in an old list  
of Silleman about I shall  
take up & compare before  
the sheets are printed. M.

Kempster has sent a letter saying  
that he expected to see you in  
Toronto on your way west; but  
that he has no news facts  
as to the Lakes.

We are all well

Ever your affectionate father

McDermott
