My dear George

I have now got back here after a very pleasant trip on the Continent. We returned from Berlin by Frankfort, Cologne, Brussels & Ostende; and after three or four days, leave for the rest of England & Scotland. We intend to make separate excursions to Windsor &

Cambridge, returning here;
so as to occupy part of the
time we must spend here
on account of washing, &c.
before leaving. I am still
intending to go to Paris, but
have not yet heard from
home on the subject.

I called at Negretti & Zambra
yesterday, & asked them
for a receipt for the therm^o-
which please find enclosed
I send it as I am afraid
it may get mislaid if
I keep it among my things.

Please excuse more at
present as it is getting late

Believe me

Your affectionate
brother
William.

P.S. I intend sending ~~the~~ a
few little purchases I have made,
by Frothingham, if I do not
return. I suppose it will be
best to send your therm^s along
with them, as they are well packed
& Father can have the parcel
forwarded to you.
