

Thinking for Report

Millman

St. Thomas' Hospital
London S. E.
England
Nov 2nd 1845

Dear Sir:-

Allow me to return
my sincere thanks to
you for a copy of the
Geological reports of the
B. N. A. Boundary Commission
and especially for the
flattering manner you
have mentioned my name
once or twice in the work.
Little did I dream of such
an honor for such a small
assistance as I gave -

As you very likely have
learned through Dr. Burgess,
I am over here pursuing
my medical studies. I
find the hospitals here
of great advantage. I have
been here now about five
months and I want to
remain about another
year if possible.

I am very much pleased
with England and its
people. I have a far
more favorable opinion
of them than I previously
had. As I believe you
have been here it is
useless for me to describe

any of the sights I have
seen. I must say that
some of them are very
fine and the time is well
spent in examining them.

There is an office here
in connection with the
B. N. A. B. C. so that I frequently
meet with Capt Anderson
and Featherstonhaugh.

On seeing them it puts me
in mind of the North West.

I enjoyed the trip so well
that I would not mind
having another such. I
would very much like to
go on the Alaska expedition
which is likely to proceed shortly.

and would very much
like to have the pleasure
of ~~planting~~^{gathering} flowers ~~re~~ with
you once more. I suppose
we could hardly expect
to have the pleasure of Dr.
Burgess' company since
he has forsaken his life
of celibacy-

The weather is quite cool
and wet.

Hoping that these few lines
will not be amiss and
again thanking you for
a copy of the report

I remain

Yours sincerely

J. Millman.
