

Home Guard, Mitchell
London. 13 Sept. 1876.

I have much pleasure
in testifying to the eminent
fitness of Mr. Leone M.
Dawson for the position of
Paleontologist to the Geological
Survey of Canada. For
upwards of two years I
was employed in the North
American Boundary Commission
with Mr. Dawson, and

has the best opportunities
of observing his skill
and ability as a
Ecologist, Naturalist and
Palaeontologist, together
with his zeal and
devotion to research in
the field. The best
evidences of Mr. Dawson's
ability are his published
works, which have now

a world wide reputation.
