

M. Gill College.  
Montreal.

May 8/77

Dear George,

Your Postal

Card of May 1, from the  
 Junction arrived to-day,  
 and we are glad  
 again to hear from you,  
 though each successive message  
 puts you farther away.

By mail to-day  
 a letter arrived from Junction  
 and also your note =  
 book sent to him  
 He has copied what he  
 wants of the lists. He  
 says he will gladly take

everything, alcohols and  
all, so I shall have  
them all packed and  
sent to him. I shall  
I suppose also send the  
box of paints to Hooker,  
Guthrie sends the paper  
addresses and will pay  
all expenses.

I have also a letter  
from W. Hamilton Merritt of  
the School of Mines London  
He is desirous of employment  
on the Geol. Survey if there  
is any opening. As this  
is the main point in

his letter, I have let  
Delwyn see it and  
shall send it to you  
after. The only other  
thing he asks is  
that you will send  
him a paper of  
his School of Mines  
Magazine.

We are all well  
Anna paid us a short  
visit ~~for~~ on Sunday  
and has been out  
to drive - The rest -

are as usual. We had  
a letter from William  
to-day. He is all  
right and says the  
lectures are over and  
the cream, going on.

Mamma says that  
she can write nothing till  
next Sunday. She thanks you  
very much for the postal  
cards,

With all love  
and good wishes

Your affectionate  
Father  
Edwards
