

Copy to  
Cope for 13.18.

McGill College Montreal

Prof. D. Cope

Dear Sir,

I have to thank  
you for the report on  
vertebrate remains, received  
a day or two ago. The appendix  
to my report has not yet  
gone to press & I shall  
therefore be able to insert  
the matter there, & shall be

I am happy to forward you  
Copies of the Report when  
completed. I shall not now  
be able to make use of any  
plates, but should you have  
incurred expense in getting  
drawings made, shall hold  
myself responsible for it—  
When you are done with the  
Specimens please address  
them to me here.

I hope to leave in a few  
days for British Columbia

where I expect to be occupied,  
in connection with the Geological  
Survey of Canada, for some  
time. I ~~do~~ therefore have no

present opportunity of prospect-  
ing the <sup>on the line</sup> bone-beds. Should  
you ever think of doing so

I shall be glad to furnish

details as to localities

Yours very truly

George O. Dawson
