THE UNIVERSITY OF MINNESOTA,

Department of

~~GEOLOGY AND MINERALOGY~~

Minneapolis, Minn., Dec 22 1879

Mr. G. M. Dawson:

Mr. Warren Upham & I propose
the name Lake Agassiz for the glacial
lake that covered the valley of the
Red river of the North & Winnipeg. We
are tracing out its limits in Minnesota
and Dakota. We should like your
approval of the name before publi-
cation, as it extends many miles
into British territory.

Very truly yours

A. H. Mitchell
