Toronto 29th July 1881

My dear Dr. George,

My friend W. Lethbridge
of London has on my advice
secured the Coal limits -
(4 in number) shown on
the enclosed sketch. I
shall probably take an
interest in them with
him and I would be
extremely indebted to
you if you would make
in a professional report
upon the quality and
best mode of working
each location with a
view if desired of
publishing it. Or if
you object to this
then

all my family - They
are now at Cascoona -
but will be in our
own house in New York
in September - I
return to London in
October -

My address, which
in Canada will be
Finance Department,
Ottawa - afterwards
of Victoria Chambers,
London E.C. 4.

Hoping you are having
a pleasant tour of
duty. Believe me

Yours sincerely

M. G. M.

P.S. Of course you will make
a professional charge for
the report -

[Faint, illegible handwriting, likely bleed-through from the reverse side of the page.]
