GEOLOGICAL & NATURAL HISTORY SURVEY.  
Alfred R. C. Selwyn, B.L.D., F.R.S., Director.  
MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

Jan. 31. 1882.

W. H. Dall Esq  
Washington D.C.

My dear Sir,

I regret to say that I have made  
no magnetic observations in British Columbia.  
I think some were made by the International Boundary  
Commission people many years ago, but if so you  
probably have them. Observations for Declination  
were doubtless made in connection with various  
Surveys, particularly those of the Canadian Pacific Railway,  
but I think they have never been collected or  
published. If observations of this kind would  
be of any service to you I can easily find out  
about them here. Each of the Rocky Mts, on  
the plains, many good declination observations  
have, doubtless been taken in the course of the

W. H. BULLY  
Working for you

My dear Sir,

I beg to say that I have made

the requisite observations on British Columbia  
I think you are well of the latter observations  
I enclose herewith a few pages of the  
report for the year 1881. I enclose for  
you another book in connection with  
the same, containing the geological paper  
but I think the same has been published  
published. If you have any more  
of any kind I can send you out  
about them here. Kindly let me  
hear, whether you have any more  
of the same in the course of the

Survey of Standard meridians & parallels.

Sir H. Leproy's & the tele. Major S. Anderson's  
are the only really scientific observations of this  
kind I know to have been made in all  
this region.

Yours very truly

George M. Dawson
