

Sept 6/82

Dear George

Our approval
 was over - great pump
 - flourish of trumpets
 all round - we all
 arrive. I leave today
 for Amets & spend a
 few days before the
 season begins.

I have received
 a batch of three letters
 from Mr Ansell, latest
 of July 15. He seems
 to be getting on with

Association meets next year at Memphis -
April. If you will take me to the
N.W. I shall perhaps take you to the
Association ^{Yours}

The Wash - says he
has found large leptote
pores - small cone
seems he, but nothing
of fruit plants. There
also a request for a
certain amount (name forgotten
at present) at Indian Reservations
Blackfoot country, also a
carned stone he has presented
to Lord Sumner. These letters
I keep for your return.

We have no letter of
this kind but perhaps
we have gone to London.

With all love & good wishes
Yours affectionately
Madison
