Dear Jerges

I have learned through two different sources that you expect to go out to the Rockies this summer and not to wait for the next Association. As to this let me say that many of your friends here will be greatly disappointed if they do not see you. I would also say that it seems to me the duty of Survey Men as far as possible to be present, as more good can probably be done in that way than in the same time spent

Dear Judge

I have examined  
through two different sources  
that you refer to go out  
to the Ladies who however  
and not I wait for the  
but observation. As to the  
at the day that many  
of your friends see with  
the great disappointment of  
they do not see you. I would  
also say that it seems  
to me the chief of many  
from as far as possible  
to be present as there  
and our probably be  
there in that way that  
in the same time there

in field work. Of course you  
are a public officer under  
Anthony ~~too~~ and must  
do your duty as directed,  
yet it seems a great pity  
if you cannot take part  
in this duty.

If I might suggest,  
I would say that with  
the present facilities it might  
be quite possible to do two  
Months work in the Rockies  
along the railway line, and  
return in August. I would  
also say that if you cannot  
be in Montreal you might  
meet the great Western ex-  
cursion at Winnipeg and  
go on with it; or if you  
come to Montreal you might  
at the end of the week

at the end of the  
course & that for  
go on with it, or if  
you are at Winnipeg and  
want the first section for  
in in literature for paper  
also say that if you cannot  
obtain in August, I would  
bring the volume home and  
return it to the books  
be quite pleased to see the  
the present facilities to help  
I would say that with  
of Scripps reports  
in this study  
if you cannot take part  
let it become a great help  
to you out on character,  
and in public office work  
in field work. Of course for

go back with the excursion  
 and remain to finish up  
 your summer's work.  
 It would also be very  
 desirable if you could  
 write something for the  
 Association. Canadian  
 papers need especially on  
 any points of Canadian  
 geology would be much  
 valued. The person to  
 write to I send an  
 abstract is W. Popley, 785

 Prof. Dunning, 22 Colborne St. \*

 I think them worth getting

Read my paper  
 on my Western trip last  
 evening. There was a  
 large meeting and  
 apparently much interest

I have been thinking  
 of you very much  
 lately and hope  
 you are well  
 and happy. I  
 have not much  
 news to write  
 at present. I  
 am still in  
 the same place  
 and doing the  
 same work. I  
 hope you are  
 all the same.

though but little discussion,  
Bancroft being the chief  
speaker. Many friends  
express for you here and  
many are coming to  
Montreal. Among Philips  
among others who seems  
very desirous to see  
you.

As you say nothing  
of the now celebrated committee  
I fancy it is quiet; but  
its report may be something  
peculiar. I am hard  
at work and hope to  
set out of London for  
the North sometime in  
May.

All love from all here
