

Muttrill
June 28/84

Dear George,

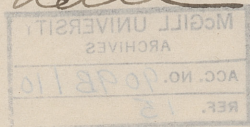

I enclose a letter
received a day or two ago.
I have said to the gentlemen
that I do not think you
can do anything for him,
so it does not need an
answer unless you care.

I did not get your
letter of June 18th till after
I wrote to you last. It
was piled away with a
lot of other letters, so
I did not get at them
till a day or two after
my arrival. However
I answered some points in it

without seeing it.

As to the survey, if I
 am rightly informed Selwyn
 will not be superannuated.
 Bell will be sent off at
 once to Wood's Bay, in hope,
 as an influential passage
 remarked to me, that he
 may be cooled off by
 the ice there. Hunt I
 have not seen since my
 return, but I shall look
 sharply after any name
 he may make.

As to the Port, Mr.
 Hope & attend a meeting
 next Wed, & to see mem-
 bers of committee before
 that time. I shall
