Dearest George,

I want to show
the first page on Apologies
but dash into the middle
of affairs. Here we are now
more at home, we left
Metis on the 9th of Sept. &
only pausing an hour at
the Montreal station we
that is to say - I the five
young ones & nurse went on
to St. Andrews. I knew
that if I once went home
I never ed make a fresh
start, so on we went un-
washed & unkempt after our
night in the Pullman, bear-
dening at Carillon we did
not meet a very warm
welcome as our litter had
miscarried so no one met
us - however I sent Eric
on the two miles to make

By the returning school - Baby was in my
arms at that time, & the school occurred
was irrevocable - I left the country
with much regret - I prosecuted & held
for a week & a nurse very attentive
& kind as the small boy, experience
has made the country girls frequently
as I understand every one is afraid of taking
girls from town that they have been in-
vited to places, no girl carries to her
keeping with alacrity, I did not long
divided her merits & we may be said
altogether in her a kind of agoutias
struggle for a couple of weeks, I never
I have been trying to make my house
run upon its own wheels, within the
former case is however most
think affairs are promising - my
name is a very fair young Englishman

whose uncertainties, not his merits made me
apply for a nurses place, tho' perhaps better
times perhaps I will I think be a comfort
to me - as this hour I write before
Thanking you my dearest I best of wishes
for quick arrival - kind letters & loving
partils of friends, with - certainly even in
prospect - was a pleasure to me coming
as it - do in the world - of my wishes
of the weather had been fine I think I
would have had a hearty knot in the
many times I hope, I go on off as far as
gettel, with cold weather & heavy frost
had taken the glory of autumn away
I must of the leaves had fallen - surely
another year if we are all as now
might - do so, I have for years longed to
have a bush at the White Mountains as well

I yellow hair I is ~~clear~~ &
pretty & quite different from
the others - By the way has
any one told you that Florence
the fair, expects to present
William with a little Florence
or Will, as the case may be,
in Dec - I fear it - ~~will~~ in-
terfere with St. mas she will
probably be unable to join
the reunion - She is very well
& prettier than ever, particularly
they are a little easy in money
matters, as the long summer
without - expenses was a help
& I believe W. is to get an
extra \$200.00 for his high
pressure work during the
summer - Our last letters
from Rankine were from
Australia - Mrs Carpenter
has quite renewed her
youth, is stronger & better
than she has been for
years - Your photos are a
continual pleasure to me,
never saw better ones -

We hope soon to hear that
you are speeding homeward
& that you will, not feel obliged
to go schooning for some time
again, mother always feels so anxious
about you - with all love
Anna
