W. H. Dall &

My dear Sir,

Permit me to thank you for your
kind attention in sending me a copy of
your esteemed paper on "Lobretia" etc. Since
receiving the publication I have read it with
very great interest. You may be interested
in knowing that we have from Masset, Queen
Charlotte Islands a shell lobret almost
identical with that figured by you in Plate 1 fig 2.
It was found in same excavation, is probably
ancient & the modern Haidas say of a kind
quite unknown to them

Yours very truly
George M. Dawson
