

M. Gill College.
Montreal.

Sept 4/92

Dear George,

I am sending
you by book-post a
few little things for
you reading, among
them the new edition
of my little book on
evolution (6th edition).
You are fully able
to take up my
developmental mantle in
addition to your
own; but I also

with you could take
up and extend
my higher educational
and spiritual work
It is my constant
prayer that you
should. You might
see the cause of
truth in the higher
sense a great impetus
of you would my
try.

I have looked at

the articles in the
peel magazine ^{was}
Expelled to. They
are hopeful signs.
I have as you ^{know}
been harping on the
same string for
years.

Eric arrived last
night, camp all well
at meter. William
and he are now
keeping Bachelor

Hall with me here

Ever yours

J. M. Dawson

P.S. I hope to write to
Lamb in a few days as
to the drawings of western
plants he is preparing;
but I must first hear
from Dr. S. E. Dawson who
is to do the engraving.

J. M. D.
