Nov 17, 1892

Dear George,

I am at length able to hold a pen and to write after a somewhat shaky fashion. I thank you for Wallace's book received yesterday, and which I shall take with me to the north, whether it seems now settled I shall go, though the time is not

Yet settled, probably
early next month.
The probable place now
is Savannah, Georgia
or somewhere in its
vicinity; but the doctors
are to meet this week
and decide. In the
mean time I am
making what preparation
I can, though not al-
luded to for down-
stairs as yet.

I have heard nothing

from S. E. Dawson as to
the Glacial book, and
I propose to write them
a day, stating that
proofs may be sent to
me in the South, if he
goes on with it.

I shall return with
this your book on the
New Jamaica which
I think you said you
had borrowed. The
others I have put in
your room to await
your orders.

We shall be much

as we were this week
and next and shall
be glad to see you
if you can come down,

Love from Mamma

Ever yours

J. M. Dawson

P.S. I see Chamberlain
and Wright are carrying
on a controversy about Inter-
glacial Periods in which some
facts are coming out about
then terminal moraine and
its fringe or border which are
rather damaging to them
both

J. M. Dawson
