

Tacoma, Washington May 8<sup>th</sup> 1893

Dr. George M. Dawson.

Montreal, Canada

Sir: In 1884 an article by John Campbell was published in the "Canadian Institute Proceedings". I wish to get a copy of these proceedings but I do not know who to write to about it. May I trespass upon your time enough to inquire if you can give me the address of the officer or person in charge of same - or Mr. Campbell's address?

I have an article on "Jade" prepared by you and published in "Canadian Record of Science" April, 1887, which is very interesting. I have also several of these Indian jade specimens & want the latest information about them. If you have published anything since the above article will you please send it to me.

Yours obediently  
James Wickersham
