

With much love  
Anna

Ms - intend to write  
of thank you for  
the things - which  
he is delighted with  
but the box is in  
rush

295 University St.  
Incl. 12/94

B. going to try, Mum's  
treat.

Acc. 1443

I am sorry you did  
not get down last week,  
but hope for better things  
this - if mother is on the  
road between her two towns  
come to us, I am will gladly  
put you up - as have  
notice sufficient at any time

I have been thinking  
about - of - about I wish  
that you wd see Birker  
about it - It seems to be  
matter he is specially skilled  
& it is better to have it  
properly dealt with before  
it becomes too chronic, &  
troublesome - Think of it in  
any case - We find our  
telephone a great comfort -

I had a pleasant letter  
from Rankin - from India  
where the British Minister  
seems to be doing even more  
than we have been expected  
of him, for his relations &  
attendant doctor -

B - is going to England  
at the middle of next month  
which will make an  
additional pressure tell  
is off - & then a second  
because he has gone - & I  
fear I have not as much  
courage to meet events, as  
I used to have - but that  
is partly because my ex-  
cellent baby has failed lately  
to live up to his character  
& been restless at nights.

I was at St Andrews  
for two <sup>days</sup> last week & only  
wish I could have stayed  
at it - I so much enjoy the  
country at any season, but  
occasion was that of gathering

use the revenues at 77-0-0 - the money  
Hutton's Victoria - Alas! Alas! - the revenues  
whole there will be what on the 10th  
the sum is what that is to say it is  
received was to a respectable man - when  
hope will make payments when seen  
to see to have paid each at once, as the  
the first period is correct, so fall long  
on a series of payments not under the ap-  
propriate: it has given him the ap-  
propriate to make the first one - to  
hope it will be all right - it can't have  
proportion to have the money at once & the  
which it - for it is not to get a  
in its nature - however we shall be  
to get it - in any case for we have not

covered this now & its consequences.

But she - the good fairy, - is to stand by  
whenever I do - I'm picking - indeed she is glad  
to go last - year - but - it - was unfortunate &  
this year, as she seemed her offer of money  
to accept - it - seems a pity - that of the money  
was not not - so too - but - perhaps that  
enough. She is very naive thought - on  
the point of the pocket up - but - that is nothing  
& think too much of his reputation to her  
has such a share of doctors ..

Whether is attending to the way

the little thoughts - of confidence & doubt  
which people I hope to distinguish in the  
deceitful & high his - I think it - was over his  
in the exact - of particular manner they have  
in your school - seem to know to be long -
