REF. 2/10

Dearest George, I have  
received your letter &  
the cheque. It gives  
me that I always seem  
to be taking favours, &  
never able to bestow  
them - At least it gives  
you the "more blessed"  
of giving - I have no  
further news to give  
you - till Dr. Brown  
tells me definitely what  
he considers best.

which I expect he will  
do, in a few days. from  
now = I am quite pre-  
pared to do what is  
thought best. though  
on several accounts -  
I rather shrink from  
the far journey, I wd  
not like to risk inter-  
fering with your plans  
if I were in difficulty  
& if Eric died I suppose  
I fancy he wd be un-  
able to winter here &  
that wd necessitate another  
large expense at the  
end of the summer. I  
have about 4 or 500  
myself that I wd take  
but that wd I am  
aware go a short distance

in such a case = I will let  
you know later what is desired  
I do not feel able to defend when  
my own judgment in the matter  
best - will go through whatever  
is thought best with your help  
His presence can make every  
part possible -

Thank you dear for all

Love & thought
