Dearest George,

Books received

with many thanks I only
wondered you to send us
two or three, both kind
letters, I really could not
acknowledge sooner, I
spoke to Dr B - again as
to the West, but he still
quite definitely advises
me to go to the Col. for the
present, but he said it
would be excellent if you
could look out - I see if
you could learn of suitable
quarters, that might be

used later on, I don't
quite know why he is
particular, but meanwhile
I have engaged rooms at
E. J. Kaorrad's - Maple
Wood Farm, Elizabethtown
Pa. - N. Y. I hope to go
Wednesday morning, I
have taken the room for
two weeks till I see how
I like the whole arrange-
ment - I have made
most-thorough inquiries
from several people who
have stayed there, & as far
as I can learn it seems
exceptionally good. I
have also introductions
to other Hotel keepers &
such, in case of need.

This great heat is not
inspiring & I feel it
much - I am sorry to be
off though I fear we shall

tried the but very bad - I not spending
like the see - The others are well
reasonable \$5-10 a week - I, \$8.00
listed to not going to a but as long
unobtainable I to the furniture; the
referring - I hope too also during the
the best - I if you improve I will
but - as well here little to make
but heart - everything has been
so many complex preparations, I
has experienced - the great but
I being unable to properly see to
with so much hope, I believe
but now I hope this will soon be
over - I will compare I - this morning

with the heavy baggage - the others
follow you elegantly - in uniform ^{offering}
present their going ^{whenever} others
I will have liked: I hope B - will
come out - next month instead of
any - for there is no need to plan
year - you can wait until Nov 1 - to the
address I give from the West, I
don't want to send you ^{back} but will
do one more to West - to - and meantime
the best - of it - whether it be too
best - the much for her - if always, this
yours - ^{travelling} ^{around} -
