Dear Serge,

Hamington informed
us last evening that
Lew who has returned
from Labrador in 2
forms him that
Selwyn has been
superannuated and
that you had been
"sent for" I hope this
is true as my fare
to you and as
being true perfect

London

I increased my trip to
the money. I am
sure that with you
at its head it
would take a
new start and
that you would
find every one
ready to sustain
you. We are now
settled at home
and Florence and
her boys have gone

up to Ottawa to-day
Luc continues to
travel his own and
will probably stay
where he is through
October, when ad-
vice will be taken
as to his next move
If you have
a return to Ottawa
you may be in
time to see Eva
who still expects to
leave in the January
on the 28th.

Your letter & mine
of Sept 8
Shurwaf just
received.

I have got to work
again and am
hoping to visit several
groups of fossils in
the course of the
winter, and will
especially to renew
and modernise or
extend my lists of
Coal plants

The proof of your
address was of course
returned long ago; but I
have seen nothing as
yet of any copies.

We are all well here
and send love and greetings
from ever
