

The Maples  
Egerton Park  
Rock Ferry  
July 22/96

Dear George,

Going to our heavy  
in Holyhead, your letter of  
the 21<sup>st</sup> did not reach me  
till I had mailed mine of  
last week; but my thoughts  
seem to have run very much  
in the same direction. I have  
not yet seen an authoritative  
list of the new Cabinet,  
so do not know who is to  
be Minister of the Interior.  
I learn however that Davies  
is to be in the office, which  
I hope will not be an ap-  
pointment adverse to Williams  
work. I can only pray that  
you may have a good man.  
Perhaps I may learn who he  
is before closing this.

You will see from the  
date of this that we have  
now dismissed both Evans  
Our passage is decided for  
the 22d; but some of the  
people here have made  
up their minds that I  
should stay on the ship. After  
on Sept 16. I hope to see  
Lord Darby & Prof. Anderson  
about this to stay, and  
to see what inducements they  
can hold out. We will  
never hold ourselves free  
to act according to Evans  
interests and any news  
from here.

We spent a rather pleasant  
time in Holyhead, though it could

I have been better & my for longer treatment  
I hope in London, as there are some more  
and things of your method, Doubtless I may  
be able to run up again before we come,  
but this is uncertain.

Wamma and I are in our usual  
place in your work

I recollect about our friends who are  
in spirits & Kuchup than we ever except. Still

I think we should have been better as I am  
honest at night. If we leave the chapter we

may still hope to have a week or so there.  
I have run left London, Singapore, & suppose

The papers

An independent inquiry into the causes of the present state of the country and the means of improving it

is now being published in London and is very interesting

to all the parties concerned in the affairs of the country

and is very well received in all the parts of the Kingdom

and is very well received in all the parts of the Kingdom

P.S. Principles of the Government of the United States of America

is now being published in London and is very interesting

to all the parties concerned in the affairs of the country

and is very well received in all the parts of the Kingdom

and is very well received in all the parts of the Kingdom
