Monday

Dear Sarge,

1896

We reached here
last evening after a
long and somewhat
rough passage; but well,
and found all well
flourishing, and something
like fine autumnal
weather, the first we
have seen. We shall
be settled in a few
days and shall be
glad if you can pay

356 35A
I shall have
a visit; I shall have
to remit to you
this week for your
Dundee Harbour
Bonds due in July.
There is also a balance
to your credit in
Mamma's hands, which
she will account for.
I have added a copy
of the Brit. Association
addresses (President & Secretary
presidents) to be sent
to you when printed.

in preparation, you will
find some things good
and some things ^{essentially}
enough; but all worth
glancing over.

I have written to
Bourne about the
Sponge paper. It is now
ready if in time, as
to which I am by no
means certain.

Ever yours

J. M. D. W. S. M.

in paper form, you will
find some things good
and some things ~~useless~~
wonderful; but all worth
preserving.

Some letters to
Government about the
George paper.
Copy of the same, a
few sheets of one of the
Newspapers.
The same contents.
