Montreal

Apr 9/97

● Dear George,

I have your
note this morning. At the
time of coming down,
it will be a great treat
if you can give us two
days next week; and
we shall be content to
wait for it; but shall
be glad to see you
either way,

I am sorry to see
in the newspapers this morning

10/19/11
That the Govt proposes
to cut \$10,000 off the
Jury Grant, & the Index and
the Public out of \$2500,
Consents to the

It is most appropriate
in the worst kind of
Government to cut down
the money just at the
time when mining de-
velopments would make
a large increase profitable;
and to bring down the
cost of money which can
give safety to a fast

Steam Service, just when
it is about to be
undertaken. This kind
of economy, with large sums
spent on useless Fads,
will soon bring Canada
into a poor position, if
it lasts; but fortunately
that cannot be long;
and I hope the expe-
rience of the present may
prepare for better things in
future. The Lord rules
over all; and will

Let matters right in Canada
as well as in Olete in his
own time.

Ever yours

Wm Dawson
