is most attentive & it is good for us
both that he has been here, for I too have
been a little "under the weather" & he has
obliged me to rest in bed for two whole

My dear George

your letter received
today telling of having received the
book for Blanche is a relief to me &
for the trouble you have taken except
I think I should like to have done
I prefer that it should be sent direct to
her I shall refer to her to write
to you explaining circumstances &
perhaps, even on receipt of the
book give to Blanche. The thing however
will need to be made very plain to the
bookshelves if they ^{last} return the price

of the book on it, or including on
account. Blanche's address is
