WASHINGTON, D. C., Nov. 20, 1899.

ausd

Dr. Geo. M. Dawson,
Director, Geological Survey of Canada,
Montreal, Canada.

Dear Doctor Dawson:

It is with sincere regret that I learn this morning of the death of Sir William, as he was a man I had the greatest personal and professional respect for. I feared when I saw him at Metis in August, that he would not long survive. Will you not convey to Lady Dawson our sincere sorrow and sympathy.

If you now find that you will be able to be in Washington Christmas week I trust you will plan to stop with me.

Sincerely yours,

Charles Walcott
