

Burkeshaw. L. Mites
June 21st 1900

Don't think of coming
here for a day. J.

My dear George

Parkins arrival
yesterday prevented me writing
to thank you for your letters
of the 17th & 18th. In regard to
the sketch of the monument
I certainly put it in a letter
besides the one to you I had
written one to Eva & another
to whom I cannot tell, but
with the memorandum you have
returned I think a correct speci-
fication

can be made. I have told
 19. our plans & he agrees with
 you that the same side of the
 monument sh^d be used I suggest
 that the name "Dawson" sh^d
 be put on the step, or base, in
 raised letters. I think this will look
 distinct & well. Do not, I pray
 you, entertain the thought of going
 to Montrose. Brewster is a man
 of experience not likely to make
 mistakes. It wd. be desirable for
 some one, you above all, to see
 it when complete & judge if
 satisfactory before paying him.

At the moment P. is in the up-
 stairs writing room reading
 over the biography as a preliminary
 step towards forming an opinion
 as to plan of work I will notice
 the answers required for Prof. Bannys
 questions. You know P.'s reticent
 ways so till I see these I cannot
 tell what he may say in regard
 to grandpa Hauser's occupations
 nor whether he will have the list
 ready for this P. M.'s mail. I will
 try to have Anne here when he
 has the answers to questions ready.
 Before I close this note I intend

to go to see Miss Mc-Nider I ask
if she, or any one in this neighborhood,
can type write the M.S. I
will add the results of inquiry.

Referring again to Prof B— do you
not think it would be desirable
to send him two or three of the
best articles that appeared soon
after father's death. P. has a spare
copy of Colby's which I will send
you. The article that I liked so much
appeared in "Educational Journal"
of New Brunswick, but I have only
the copy that is in my album of Cuttings.
I also send what I believe you
thought the best photo. Some has

been suggesting that I should
 get a copy of the one taken
 by Natman, originally from
 the oil painting, same as the
 one I sent to you to be
 sent to Pray Barney if he
 intends that his "life" should
 be accompanied by a likeness.
 It wd. be sent as a call. If
 you think this should be done
 will you please order a copy
 to be charged to me.

I have seen Miss Mrs. Kider - she
 has learned type writing & so has

a case of Mr. Atlee but neither
of them have a machine & they
are not experienced.

Anna dined with us & we
had a little talk about the
biography, from which I gathered
P. thinks it ~~shall~~ be kept strictly
to an auto-biography & only alterations
made in words & the construction
of sentences with a little smoothing
and where especially heavy, but
he is not ready yet to give an opinion.
He will doubtless soon give a
more intelligible account after a day
or two. He has not the answers to
Prof. B's questions ready. In all love.
Mother.

been very busy since I left
for a copy of the one taken

by Watson, originally from
the oil painting, some as the

one I sent to you to be

sent to you to copy of the

interest as there is the

in accordance of a letter

the rest be sent on a scale of

you think the the in there

the your please order steps

to the change see to you.
