

the biography here. Thank you  
also for two letters & the magazines  
with Cully's & Mackey's notices.  
I have back in my album of  
"Cuttings" but doubt if I see has  
got them, & as it might be use-  
ful for Dr. Barney to see them  
I propose to send them to him  
with a note asking him, when  
he has received the articles, to per-  
use them to his address.  
As you will know, before this  
time, then I asked Rankine to  
assure your first letter to me as  
to the desirability of getting the opinion

of some are outside the family  
 about autobiography because, he  
 does not think after your careful  
 culling & altering that this is necessary.  
 I am in doubt as to whether you  
 intend to send a type written  
 copy here for further consideration,  
 if you do it Mr. B. arranged  
 either to read it aloud in pre-  
 sence of Bernard & Anne or to  
 give it to them to read & ask  
 them to write any criticisms they  
 may wish to make. I have asked  
 Rankine, who is talking of leaving  
 here on Friday, to stay another week  
 partly in view of this - that there may

he ample time — partly because  
 he says that he is in no particular  
 haste to return. Gb is still visiting  
 relations. but I wd like to be as-  
 sured that the delay does not  
 interfere with any plans you have  
 for going West or returning  
 here.

I am not quite as well<sup>d</sup> in regard  
 to service as when you were here  
 as Mr. Thrus had another out-  
 burst of prenyed passion & wanted  
 to leave. So all advised me to let  
 her go. We did every<sup>thing</sup> possible to make  
 her journey & her reception in Boston  
 easy & profitable for I really liked her
