

Little Inlet
Aug 17th 1900

Dearest George -

Your letter re-
ceived - as to the trip you
kindly offered me I don't
seriously consider it, I
co^{ld} have been the greatest
pleasure to go anywhere
with you - & the mountains
are a great attraction, but
I co^{ld} not see my way to
it - I assure you I do not
make much of trifles, it is
easy enough to arrange
garments & so on - but
I don't think I sh^d go &
have the morning to spare
& there is so much to be
decided about school
this year - I do not know
what to do with Bernard
he does not seem to go well

As his religious life & influence & work
grow as his Theological views mature from
the hour I receive his writings I wish to
say - I think that Prof. A. A. Phelps
will be regarded as the great prophet
of our time. His work is "Theology before
& not" All his life & work - when his
is that presence & reach of that light
This was more generally felt - than I think
I can recall the letters we received
They were sent from some entirely
Christian men called to say that they
all they realize that he lived in the
world of God. It was a remarkable
testimony - I think we had to say that
that this idea he not only & equally - Aug.

think if ~~it~~ is to be published in its
present form, it can be better altered
or left as to introduction - for with R
I preferred land law = as final day.
It has arranged me best - I have not
been so in final law - I could see
easily with to show the whole thing
over in it - by the written piece of
then after an division - as it is I have
never seen how the obj - to show the
arrangement - though I have never read the
books - matters also and read this case
fully & give her final with seeing
the obj - that who will read the
book will be that who sees her

a usual tracks = I know
Mrs Boney tells me she can
not go on with the class
the little girls have grown
far 3 years & I have to
study up schools as a
home plan for them - &
I have no work to go home
to my mind here is but
far the summer =

Another quite agrees with
me that I wd not be wise
to attempt it = Perhaps later
on I might go away for a
week if you had any
country to inspect - I wd
love to go = Many thanks
your constant love & prayers
are a cordials in life's
struggle - Maas Mrs M
left us yesterday at half
an hours notice - that is
why I cd not write to
you by yesterday's post.
As to the King - I rather

gested - It may be all
right - but - I think mother
& I sh^d read & understand
how the thing strikes us
as a whole. & as you say
there is no great-haste required.

I hope I have written
sense I get - so little quiet-
to think - when I do I love
to write, & everything comes
to me just - as I want it -
all sorts of ideas I never have
except with pen in hand.

Much love
Affectionately
Anna

get it - by any means
right - but I think
of it - I need a
been the thing
at a whole - I
there is no great
I hope I have
I get so little
to think - when
to write - I
to me just as
all ends of
the left with
me in hand.

Thank you
Affectionately
Anna
