

Wednesday

Dear George, I have got a  
lovely little white dish  
for mother price \$9.00  
& I think it will really be  
of daily use & pleasure -  
Lais chair I think you will  
also approve of - I Clara will  
render an account of her  
daisy, the smaller children  
get few toys, & really need  
some lightening of the kind  
they are rather little people &  
incline more to making &  
reading & sewing. Sus &  
Lais have also set their  
ambitions upon having a  
magazine each for the

coming year. Lois has  
chosen her form of literature  
& Eva is still hesitating, &  
this also will come out of  
your fund. you don't  
mind its being broken up  
if it gives satisfaction, do  
you -

A cable just came  
from Hankin says -  
"Sailing tomorrow" -

We expect you down here  
Friday or Saturday. Mother  
hopes you will try & come.

We have just had  
Bernard returned from on  
the sick list, had a head  
cold, & as there were only 3  
more school days, & he had  
up to mark, I telephoned to  
send him in - I never got  
a greater shock than when  
he arrived, he wonders his  
mind went dead, he  
must have given 3 or

by wishes, & is as thin as a lath. He seems  
to have been feet well, & looked after  
well too. but we shall have to try &  
cure him up, & have him hearty for  
H. man -

Officially

Amos

Another's cold nearly gone  
the men out yesterday, & gone  
again, today -
