Jan. 8th 1901

Dear George, I am truly sorry
not to have written to wish
you a most happy New Year
long ago, but better late than
never - I have been very
rushed - accumulated shop-
ping requiring attention
& the cheap rates making it
desirable to attend to it now.
I am still living in bed, &
all the children's clothing
to be checked over - Boots &
shoes quite a study alone -
and I had hoped to pay a
few calls - but so far have
not accomplished it - but
it is after all only a question
of taking it - have by have
& doing ones best to choose
wisely what is most im-
portant - We were sorry to

hear of your passing through
but - hence you were in haste
we hear the meeting was a
general one, but - have seen
no notice of your address
Mother is desirous to see it -
Her pleurisy is always in
some state of rebellion, I
never heard of a house so
afflicted with Coughs & colds
- but hot-water cylinders
burst - on Friday & after
repairs again gave way
so we actually had water
in here for dinner Sunday
I have only seen B - once
he has his glass plate of
Alicia has joined the Club
It - certainly will be pleas-
ant for him as there are
many of the best people there
but as to intelligence & action
interest - in public matters
as well as wealth -
I fancy he will prefer
silence to do about - success &

calling, & social pleasures - I have not
heard anything varied abroad - the King
has been here but not before the court.

question, but I fear matters will have
to pass - well but well - who is not the
right - being at all. I I have my doubts
as to whether who is ever respectable.

There is much better I see out for
a little walk each day, so, says the
well even be able to do as usual
Bella came in 4th of the estate year
near 9 women, in English - her 13th in the

branch & 18th in Kentucky - I was heard
Ist class in French - then on she is taking
several good pieces, I think it is a very
standing - I believe who is doing very well

in observing the bad time since we were
brought to the valleys - I was gone back
blowing & very - whenever is better I was
like nothing but - I am keeping him as
long as a few extra days before he re-
solves his mind - I shall be so
willing to think I shall for his going
with it I am glad of it - I was back a day
and thing to help him on his fire - A. O.
I would not mind because it is dangerous
him, I would like to see him in our
houses than because of the report
I hope. There is a wind out of the
west & richness - the tide has the way
& ocean's billows & always feel it hard
to the west - then there is long season
to the west being good for sailing
W. S. has got a capital idea of a new

with your money, I reflected
what his photo materials
& given me \$1.00 to keep as
a future reserve - mother's
money he put into a good
havel bag: Cor has paid
his rink ticket & got a hockey
stick & paid 50¢ for place
for a funeral, the mother of
one of his team dying suddenly.
Cor never asks for money for
such things, or even car fares
if he has any of his own & it
is a good spirit, though I feel
sorry to have his money jelled
away in these ways, & have
him with little to show

mother's

I hope he is going to deserve
a gun in spring -

With all love

Anna
