

5 Terrace

Gravesend

My dear Dawson

I am sorry to have
to tell you that you have
just missed the 2nd £15 scholar-
ship, Milford being before you
in both Physics & Drawing, &
just below you in Chemistry
although he is equal in
you and he are bracketed
& you are put first
in the bracket. I have passed

2nd Class in Chemistry, thanks
to your help & your urging
me to work, but not in
~~chemis~~ physics; that beast
Guthrie has only past about
6 or 7 fellows at the
most, they were all in
a daze of a wax who
did not get through.

I am awfully tired and
am just going off to bed
You must excuse this
short scribble, I hope
you have arrived all
safe in "Tommy Scotland"

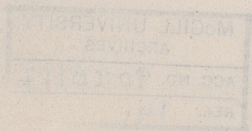

† that you will enjoy
your vacation very much
I am off for Ireland in
about a fortnight.
Hoping to hear from you
occasionally

Believe me
yours sincerely

Archie Pachelny

P.S. I forgot to tell you
who was first, but of
course you know. Green-
wood was as you are with

A.

I that you will enjoy
your vacation very much
I am off for Ireland in
a boat a fortnight
Hoping to hear from you

occasionally
Believe me
