

Copy.

9 July 1874.

Tadoussac.

Dear Capt Cameron.

Lord Dufferin desires me to thank you very sincerely for the copies of Mr. Dawson's report on the Tertiary Lignite formation which you have been so kind as to send him. He will read it with great interest, and I have been expressly commissioned to request that you will convey to Mr. Dawson His Excellency's thanks & acknowledgments for the zeal & ability he has shewn in the investigation of a subject which will in all probability exercise an important influence on the prosperity of the western portion of the Dominion.

Believe me

Yours very sincerely.

(signed)

A. J. Fletcher.

Capt<sup>n</sup> Cameron.
