Dear Dr. Dawson

Lord Lansdale is
on the point of starting
on an expedition to
the Macenzie River
in order to study
the natural history
of that region.
I have told him

that I believed that
you had more practical
acquaintance with
the remote parts of
the N. W. than any
one else & I have
advised him to
call upon you before

Leaving Ottawa

I am

Dear Dr. Dawson

Yours if

Lansdowne
