

Toronto

20th May 1890

My dear Dr Dawson

Many thanks for the  
kind gift of a set of your  
papers for our new library.

They will be valued  
here; and when bound,  
will form a useful  
volume of reference  
on important Canadian  
questions in none than  
our department.

I hope to have the  
pleasure of meeting you  
once more at our  
Royal Society gathering.

But my movements  
are somewhat uncertain

for our late fire  
has involved me

in never ending  
meetings & business

of all sorts; and

our University exam-

ination work is

still in progress.

I learned with great  
sorrow of the bereavement  
in Dr Harrington's  
bright little family  
group. I deeply feel  
for them; and for  
all indeed; in the  
shadow that falls  
over the whole home  
circle; when brightness  
and congratulations  
were alone looked for.

Yours faithfully  
Daniel Wilson

I learned with great  
pleasure of the  
in a  
bright like  
group. I  
for them; and  
all included; in  
shadows that  
see the whole  
side; when  
and our  
were above  
Wm  
James
